

# SANTHOSH CHANDRA RAJERU

Mainframe Developer

Email: santhoshrajeru@gmail.com

Phone: +917093867202

---

## PROFILE

Mainframe Developer with 3 years of experience in COBOL, JCL, DB2, CICS, and VSAM. Proficient in Agile methodologies, technical design, coding, testing, and Level 3 production support. Skilled in root cause analysis, process automation, and financial reporting compliance. Certified FLMI and IBM Mainframe Application Programmer Level I. Recipient of the Sapphire Award for excellence in application ownership.

---

## WORK EXPERIENCE

### Analyst II Software Engineer

**DXC Technologies, Hyderabad | June 2022 – Present**

- Analyzed requirements, prepared technical design documents, and developed solutions using COBOL, JCL, DB2, and CICS.
- Conducted coding, testing, and code reviews, ensuring high-quality deliverables.
- Managed production deployments, including change tickets and package reviews.
- Provided Level 3 technical support, resolving critical issues and improving system stability.
- Automated manual tasks using COBOL and JCL, reducing operational efforts by 30%.
- Recognized with the Sapphire Award for independently handling application responsibilities.

### Trainee Software Engineer

**DXC Technologies, Hyderabad | Feb 2022 – May 2022**

- Completed intensive training in mainframe technologies (JCL, COBOL, DB2, VSAM, CICS) and gained foundational knowledge of the insurance domain.
- 

## PROJECTS

### Annuities & Retirements (wma, DVR)

**Duration:** Jun 2022 – Feb 2024

**Client:** Equitable | **Domain:** Insurance

- Worked as a Mainframe Developer, resolving abends, bugs, and job failures.
- Conducted monthly, quarterly, and annual cycle runs, ensuring smooth operations and compliance with business requirements.
- Automated manual tasks using COBOL and JCL, reducing cycle run time by 25%.
- Provided Level 3 production support, resolving critical issues and minimizing downtime.
- Collaborated with the QA team to ensure thorough testing of new features and bug fixes.
- Documented and maintained technical specifications, ensuring knowledge transfer to new team members.

### Bermuda Retrocession (DVR)

**Duration:** Oct 2024 – Jan 2025 (Full Time)

**Client:** AXA Life Insurance | **Domain:** Insurance

- Developed and maintained Chase reports for Equitable, accurately tracking and reporting fund subscriptions, redemptions, and corresponding dollar amounts from the admin system.
- Ensured compliance with financial reporting standards, delivering high-quality solutions.
- Collaborated with business analysts to understand reporting requirements and translated them into technical specifications.

- Optimized JCL scripts and COBOL programs to improve report generation efficiency by 20%.
- Conducted unit testing and integration testing to ensure accuracy and reliability of reports.
- Provided Level 3 production support, resolving critical issues within SLA timelines.

#### **Internal Reinsurance (DVR)**

**Duration:** Feb 2024 – Nov 2024 (Full Time)

**Client:** AXA Life Insurance | **Domain:** Insurance

- Developed a backend interface to send reinsurance letters to policyholders and store their responses.
- Processed policy owners' novation status and sent responses to the admin system.
- Designed and implemented DB2 stored procedures to handle large volumes of policyholder data efficiently.
- Automated the generation and distribution of reinsurance letters using COBOL and JCL, reducing manual effort by 30%.
- Conducted root cause analysis for system issues and implemented permanent fixes, improving system stability.
- Collaborated with cross-functional teams to ensure seamless integration with the admin system.

---

### **TECHNICAL SKILLS**

- **Programming Languages:** COBOL, JCL, REXX, Bash/Shell Scripting, Python
- **Databases:** DB2, VSAM, PostgreSQL, SQL
- **Tools:** ISPF, CICS, SDSF, File-Aid, Expeditor, QMF, Endeavor, Job Sched, SPUFI, Service Now, GitHub, Micro Focus, FTP, JES2
- **Platforms:** z/OS, Eclipse
- **Methodologies:** Agile (Scrum)

---

### **CERTIFICATES**

- LOMA 281 - Meeting Customer Needs with Insurance and Annuities - 3<sup>rd</sup> Edition
- LOMA 291 - Improving the Bottom Line: Insurance Company Operations - 2<sup>nd</sup> Edition
- Fellow, Life Management Institute (FLMI)
- Interskill - IBM Mainframe Application Programmer Level I Certificate

---

### **ACHIEVEMENTS**

- Recipient of Sapphire Awards in recognition for picking up the responsibilities and handling the application independently.
- Received Champs Award for contributing to over 3 applications and delivering quality results.

---
